

POWERED BY DATA. PERFECTED THROUGH INSIGHTS.

Redefining the Future of Energy Management

In a new energy era driven by global Net-Zero commitments, the demand for resilient and profitable renewable energy projects is surging. Asset managers require comprehensive and productive energy management solutions that can arm them with the tools to operate, manage and optimize effectively.

Energynie™ Guide Better Energy Decisions in Real-Time

Contel Smart Energy delivers Energynie™ – a supervisory, control, and data acquisition (SCADA) solution for efficient and enhanced energy asset management based on real-time analysis, data-driven insights, and unique forecasting capabilities. With its hardware and software engines and flexible cloud-based architecture, Energynie™ manages and foresees energy generation and storage capacity, alerts teams to critical issues, and streamlines performance to increase the profitability and lifecycle of energy assets.

As a subsidiary of Contel Technologies Group, Contel Smart Energy applies over 60 years of hands-on experience in both small and large-scale industrial automation and integration to the technological innovation behind Energynie™ – our intelligent, end-to-end energy management solution (EMS).

Energynie™ Capabilities & Key Benefits

Manage Today, Forecast Tomorrow

- Real-time visibility and control of energy sites
- Insights that guide smart generation and storage decisions
- AI-based predictive analytics and pattern identification
- Enabling efficient O&M management to reduce costs

Engage & Optimize

- Guide better decision-making with dynamic data dashboards
- Optimize asset performance with actionable insights
- Detailed reports, delivered in a click
- Clean, mobile-friendly interface for improved accessibility

Integrate & Automate

- Flexible cloud-based architecture (SaaS)
- API-based integration to third-party hardware
- Instant fault identification and automated alerts
- Comprehensive energy management for the industrial sector

Comply & Customize

- Secure and scalable
- Compliant with regulations and industry standards
- Customizable dashboard, KPIs and reports

Our Impact

300+

Global employees
in the Contel
Technologies Group

250+

Renewable energy
generation sites
supported worldwide

1.5GW+

Managed at sites in
operation or under
development

Among our Clients

Let Energynie™ enhance the productivity,
quality & profitability of your energy assets
